San Diego, CA It is common for people to question why they would benefit from legal representation when they have insurance. There are many reasons to retain an attorney. If you are injured in an auto accident, you will want to make sure your interests (not the insurance company's) are protected, and that you are fully compensated for your damages. An attorney will ensure your medical bills and lost earnings are paid, and that you obtain the proper medical treatment to ensure your injuries do not become chronic in nature.

The [Law Office of Ryan Harris](#) is dedicated to protecting the rights of injured persons and their families in the San Diego and Orange County regions. We are here to assist you through all areas of your personal injury case. We understand individuals cannot always prepare for the unexpected; however, we encourage you to take some simple measures to help ensure your interests are protected if an auto accident should occur.

If you are involved in an auto accident, it is important to gather necessary information. The information you need is set forth on our [Auto Accident](#) Form which is available on our website. When a traumatic event happens it is easy for anyone to become overwhelmed, forget to ask the right questions, and obtain much needed information. Please carry the Auto Accident Information Form in the glove compartment of each of your automobiles. It will serve as your guide in gathering all of the pertinent information you will need to ensure your interests are protected.

In addition to completing your auto accident form it is also wise to place a call to your insurance carrier to initiate a claim. Your auto insurance carrier will begin the claim process and process the necessary forms required by the DMV.

When you are represented by the [Law Offices of Ryan Harris](#) you will be assured that your interests, not the insurance company's, are protected. While you focus on obtaining appropriate medical treatment and recovering from your injuries, our office will handle all of the phone calls, letters, and demands of the insurance companies. We will ensure you are properly cared for, not only by your medical doctors, but most importantly by the insurance company. All personal injury cases are taken on a contingency fee basis, which means no fees or costs are owed unless we win your case.

In addition to auto accident cases, the [Law Offices of Ryan Harris](#) also handles Animal Bite Injuries as well as Slip and Fall cases.
